Global Recognition Professional Certificate **Worth RM5,000**

FOR WHOM?

MBA in Supply Chain Management + ISCEA Certified Sustainable Supply Chain Professional (CSSCP) Certificate

The supply chain industry is a rapidly growing field with significant potential to drive national economic growth, as it plays a vital role across various sectors. Elevate your expertise in supply chain management by combining a comprehensive Master of Business Administration (MBA) in Supply Chain Management with the prestigious ISCEA Certified Sustainable Supply Chain Professional (CSSCP) certificate. This dual credential not only equips you with the strategic insights and tools to excel in supply chain management but also empowers you to integrate sustainable practices into your professional endeavors.

Key Benefits:
- Comprehensive Supply Chain Knowledge: Gain a deep understanding of supply chain operations and strategies through the MBA program.

- Sustainability Expertise: Acquire the skills to design and implement sustainable supply chain strategies with the CSSCP certification, aligning with global sustainability goals.

- Industry Recognition: Benefit from ISCEA's international recognition and network of supply chain professionals across 47 countries.

- Career Advancement: Enhance your career prospects with a dual credential that is highly valued by employers worldwide.

By integrating these two qualifications, you will be well-positioned to drive innovation, efficiency, and sustainability in your organization, setting yourself apart as a leader in the field of supply chain management.
